INTRODUCTORY SECTION

City of Watsonville

"A Community of Opportunities"

February 25, 2020

Honorable Mayor, City Council and Citizens of the City of Watsonville:

REPORT PURPOSE AND ORGANIZATION

We are pleased to present the City of Watsonville's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019. The CAFR is intended to present information above, what is required by generally accepted accounting principles and State law.

The Charter of the City of Watsonville and the State of California law require that all general-purpose local governments publish within six months of the close of the fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (U.S.GAAP). The report should also be audited by an independent firm of certified public accountants (CPA) in accordance with generally accepted government auditing standards (GAGAS). Pursuant to the requirements, we hereby issue the comprehensive annual financial report of the City of Watsonville for the fiscal year ended June 30, 2019.

The CAFR consists of management's representation concerning the finances of the City of Watsonville (City). Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Watsonville's financial statements in conformity to U.S.GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Watsonville's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Audited Financial Statements

Certified Public Accountants, have issued an unmodified (“clean”) opinion on the City of Watsonville’s financial statements for the fiscal year ending June 30, 2019. A copy of this report is included in page 15 in the Financial Section of this report.

The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City’s financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with U.S. GAAP. The independent auditors report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Watsonville also incorporates a broader, federally mandated **Single Audit Uniform Guidance** designed to meet the special needs of federal grantor agencies. The standards governing the Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Watsonville’s separately issued Single Audit Report.

GAPP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Watsonville’s MD&A can be found immediately following the report of the independent auditors.

CITY OF WATSONVILLE PROFILE

The City of Watsonville was incorporated in 1868 and is located six miles inland from the Monterey Bay in the State of California. The government has a land area of 6.19 square miles and a population of 53,920 people based on US Census estimates as of July 1, 2019.

Watsonville became a charter City government in 1908. Policymaking and legislative authority are vested in the governing City Council, which consists of seven Council Members, one of whom serves as mayor. The mayor is appointed on sequential basis from each of the numbered City Council districts and serves for a term of one year. The council is elected on a non-partisan basis from seven electoral districts. Council members are elected to four-year terms. Elections are staggered with four Council Members elected during one election and three Council Members elected in

the following election two years later. The governing City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the government's City Manager, City Clerk, and Attorney. The City Manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the department heads.

City Services

The City of Watsonville provides a full range of services including police and fire protection; water treatment and distribution; solid waste collection and landfill disposal; sanitary sewer collection and treatment services; airport facilities; building inspection, planning, economic development, housing rehabilitation, and general government services; library services; recreational services; parks; street construction and maintenance; and general administration.

The financial reporting entity of the City includes all the funds of the City of Watsonville, as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable. The Successor Agency of the City of Watsonville Redevelopment Agency's information in this year's financial report is presented separately as part of the fiduciary statements. Additional information can be found on this entity starting on page 90 within the notes to the financial statements.

Budgetary Process and Controls

The annual budget serves as the foundation for the City of Watsonville's financial planning and control. All departments of the City of Watsonville are required to submit requests for appropriations to the government's management on or before March 31 of each fiscal year. The Finance Department uses these requests as a starting point for developing a proposed budget. The Finance Department then presents this proposed budget to the Council for review prior to May 31. The Council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30, the close of the City of Watsonville's fiscal year. The appropriated budget is prepared by fund (i.e. General Fund, Water), department (i.e., police), and division (i.e., investigation).

Department directors may make transfers of appropriations within a department. Transfers of appropriations between departments, however, require the special approval of the City Manager. Budget to actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. The general fund, impact fee fund, housing fund, and redevelopment and housing grants fund comparisons are presented on pages 38 to 41 as part of the basic financial statements for the governmental funds. For governmental funds, other than major funds, with appropriated annual budgets, these comparisons can be found in the governmental fund subsection of this report, which starts on page 102.

FACTORS AFFECTING FINANCIAL CONDITON

Information presented in the financial statements is perhaps best understood when it is considered from a broader perspective of the specific environment within which the City of Watsonville operates.

Local Economy

Situated in the heart of the Monterey Bay area in the lush Pajaro Valley, Watsonville lies 95 miles south of San Francisco and has a population of over 51,000. It is a rich agricultural community (the Pajaro Valley is one of the world's largest agricultural centers) famous today for its fresh berries, apples, and cut flowers. This tradition sprouted from the late 1800s when the area harvested staples such as wheat and sugar beets. It later became a major processing center with producers such as Martinelli's Sparkling Apple Cider becoming a major employer in the community. More recently, the agricultural base has shifted towards its core crops today. At the same time, various light manufacturing firms have expanded Watsonville's economic base to include electronics, high-tech, marine supplies, and construction, such as Applied Motion Products, CSE Group, West Marine, Fox Factory, Annieglass, Granite Construction and Granite Rock.

Watsonville is more importantly recognized for its ethnic and cultural diversity. Over 81 percent of its population is Latino. Watsonville is also a young town, with over 32.9 percent of its population 19 and younger years of age.

Economic conditions in Watsonville are heavily influenced by agriculture and the cost of housing. Santa Cruz County is consistently ranked as one of the most expensive places to live in the United States when housing costs are compared to median income. Watsonville has the most affordable housing in the County. Watsonville has a median household income 22% less than the County average. This disparity is attributable to the high number of farm workers who live in the City. Incomes tend to be lower, leading to greater demands for affordable housing. Watsonville also tends to have a higher unemployment rate than other cities in the County. However, the average unemployment rate has improved over the past few fiscal years, dropping to 4.2%.

Watsonville lags the surrounding area by almost any economic measure. However, recent years show that Watsonville is reaching a stronger more sustainable position with increases in all of the City's major revenue sources, including sales tax, property tax, and departmental revenues. Certain revenue streams provide a supporting indication of how the local economy is doing. Property tax provides a glance of how strong housing prices are increasing or decreasing. Sales tax specifically is a good barometer of residential and visitor's ability to have and willingness to spend their resources. Community development (planning and

building) fees provide a glimpse of what the development sector expects for demand in the near future.

Property Tax collections (excluding Redevelopment Property Taxes) hit a low in 2010-11 and have been recovering since. FY 2018-19 marks a new peak as this year's allocation included amounts from a recently completed 54 residential apartment complex was completed in the downtown area, and an increase in residual payments from formerly redevelopment areas as debt related to those projects is retired. We have reason to believe this important stream will continue to increase moderately as there are several residential and commercial projects in various phases of planning or construction including, residential townhomes, two hotels, and a major commercial project on Main St. Furthermore, median home prices in our area continue to increase which will add to our revenues as properties change hands.

Sales tax revenues have been slowly climbing since a low point in 2010-11. Collections in 2018-19 are 6.6% above the prior year driven by automobile sales and building construction supplies. This revenue is likely to see changes in coming years as more and more people shift away from brick and mortar shopping to online sales. Also, as noted, the driving source of our increase is in areas that are sensitive to recession and economic trends. However, we do expect that the housing and commercial developments anticipated in future years will result in more people spending their time and money in Watsonville, and therefore we are cautiously optimistic that this source will continue to see growth.

Growth in community development fees had been steady since a low in 2009-10. Although this revenue did see an 8% drop in FY 2018-19 in comparison to FY 2017-18 revenues. This revenue stream can often be lumpy as fees for one major project can create major year to year swings. FY 2018-19 saw the opening of a 10,000 square foot commercial project at 45 Aviation Way which included Beer Mule. Additional restaurants and services continue to populate and fill out that space. Coming commercial developments include 2 new hotels, an organic grocery store, and assorted retail and food.

Utility user taxes are driven by consumer utility prices and demand. Normal increases in utility rates from higher energy prices and planned capital improvements to infrastructure have a corresponding increase in this tax. The updates to the ordinance which voters adopted in November of 2016 lowered the tax rate, but expanded the types of technologies which could be taxed to be more in alignment with modern technologies. FY 2018-19 is the second year these changes were in full effect and resulted in was essentially flat from the prior year.

In November 2018 voters also approved an increase to the Transient Occupancy Tax from 11 to 12%. Although due to a lag in reporting and collections, FY 2018-19 only partially felt the effect of that increase and saw a 3% increase in this tax

revenue. That rate increase, along with new hotels in development, should result in increases in future years.

The Cannabis Business Tax – Measure M imposes a tax on cannabis businesses in the City of Watsonville. As approved by the voters, 20% of its proceeds are to be used to pay for law enforcement and crime prevention services, 15% for fire services, 20% for community development, and 25% for parks and community services, 8% for City libraries, and 12% for non-profit and community services. Collections in FY 2018-19 fell well below expectations due to slow starts for cultivation and manufacturing permittees, but also saw a large increase from the prior year and permittees were able to complete start production. We do expect this revenue to continue to grow in FY 2019-20 and become more predictable and the market becomes more established. Anticipated changes to the City's Ordinance to expand the number and type of licenses could also increase this revenue.

Long-term financial planning

Although the City has seen revenues rebound, stabilize, and grow, there are still considerable risks as we plan for the future. Watsonville, while we have been able to build up our reserves, still only has minimally recommended levels of reserves that are lower than the surrounding areas. This speaks to our financial preparation for future economic slowdowns and our ability to respond to unanticipated events such as natural disasters. The City is also facing continued significant increases in pension costs, as CalPERS (California Public Employees Retirement System) increases both the City's Unfunded Actuarial Liability (UAL) payments for past losses, and the normal cost of existing members going forward. These increases in pension costs will result in a total increase of approximately \$5,000,000 over the next 5 years and pose a serious threat to the City's financial health in the near and long-term. Combined with ongoing increases in health care costs, the City Council and staff will need to closely control expenditures and any increases to operations.

Furthermore, the City has a large backlog, over \$18 million, of deferred infrastructure and capital needs. We expect this number to increase as we update our City's Capital Improvement Plan. Many of the City's facilities are in poor condition and threaten our ability to effectively and safely provide services to the public. Unless funding for major capital projects is increased, the City will continue to face increasing maintenance costs and infrastructure failure. In addition, much of the development discussed above that will bring us additional sources of revenue will also bring us additional expenses in the form of new service demands. Additional infrastructure and service levels will be needed in order to maintain core service levels for the additional residents and visitors.

The FY 2019-20 budget was approved as balanced by the City Council and included negotiated raises for employees and some staffing enhancements for departments. Watsonville's financial outlook is positive. Nevertheless we need to grow

thoughtfully, addressing past deficiencies, building up appropriate reserves, investing in our infrastructure, and preparing for future risks.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Watsonville, California for its comprehensive annual financial report (CAFR) for the fiscal year ending June 30, 2018. This was the nineteenth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easy, readable, and efficiently organized CAFR. The report satisfies both U.S. GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR meets the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate. In addition, the City has received the GFOA's Award for Distinguished Budget Presentation for its biennial budget dated June 19, 2019. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including policy documentation, a financial plan and a communication device.

The preparation of this report could not have been accomplished without the efficient and dedicated service of the Finance Department staff. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. In particular Administrative Services Manager, William P. Hays, CPA, who coordinated the audit. His leadership and dedication to the project is the major contributing factor to the City being rewarded with the Certificate of Achievement for the last nineteen years. Marissa Duran, Assistant Finance Director and Patricia Rodriguez, Financial Analyst, who maintain the City's general ledger, also deserve special recognition for their contribution to the report. The following remaining Finance Staff made this report possible through their dedicated service throughout the fiscal year: Marisa Bermudez, Ilda Estrada, Maribel Pierce, Christine McGrath, Diana Rivas, Laura Calata, and Mary Stepovich. The Mayor and the governing council should also be given due credit for their interest and support in managing the City of Watsonville in a responsible and progressive manner.

Respectfully submitted,

A handwritten signature in blue ink, appearing to be 'SA' followed by a long horizontal stroke.

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the
City Council of the City of Watsonville, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Watsonville, California (City), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information and of the City as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and respective budgetary comparisons listed in the Table of Contents as part of the basic financial statements for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and other required supplementary information as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Introductory Section, Supplementary Information, and Statistical Section as listed in the Table of Contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 25, 2020 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF WATSONVILLE, CALIFORNIA MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Watsonville, we offer readers of the City of Watsonville's financial statements this narrative overview and analysis of the financial activities of the City of Watsonville for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 2 - 8 of this report. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

Financial Highlights

- The assets of the City of Watsonville exceeded its liabilities at the close of the most recent fiscal year by \$240,392.
- The City's deferred outflow of resources-Pension totaled \$17,585 and its deferred outflow of resources-Pensions totaled \$2,635.
- The City's liabilities totaled \$107,116.
- The City's total net position increased by \$6,309. Governmental activities net position decreased by \$1,127, which most of this decrease was due to the Airport enterprise fund write-off on advance payable. Business type activities net position increased by \$7,486. Most of this increase was from Water ending with positive operating income, and an Airport write-off of advances payable.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$33,388 an increase of \$137 in comparison with the prior fiscal year's balances. The non-spendable portion of the fund balance was \$123, the restricted portion was \$20,753 and the unassigned amount was \$12,511 a large portion of the unassigned fund balance was created by increases in taxes by the general fund during fiscal year 2018-19 and budgetary expenditure savings.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Watsonville's basic financial statements. The City of Watsonville's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City of Watsonville's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the City of Watsonville's assets and liabilities, with the difference between the two reported as net position. Increases or decreases in

net position may serve as a useful indicator of whether the financial position of the City of Watsonville is improving or deteriorating overtime.

The *Statement of Activities* presents information showing how the City of Watsonville's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing or related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g. uncollected taxes).

Both of the government-wide financial statements distinguish functions of the City of Watsonville that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Watsonville include general government, public safety, housing, streets, and culture and recreation. The business-type activities of the City of Watsonville include water, sewer, solid waste, airport, and fiber optic activities.

The government-wide financial statements can be found on pages 31 to 34 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Watsonville, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Watsonville can be divided into three categories: governmental funds, proprietary funds and fiduciary fund.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluation of a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Watsonville maintains eighteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, impact fees fund, housing fund, redevelopment and housing grants fund, and general debt service fund which are all major funds. Data for the other thirteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Watsonville adopts a biennial budget (one year adopted and one year proposed) for all its governmental funds.

The basic governmental fund financial statements can be found on pages 36 to 41 of this report.

Proprietary funds. The City of Watsonville maintains two types of proprietary funds; Enterprise and Internal Service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Watsonville uses enterprise funds to account for Water, Sewer, Solid Waste, Airport and Fiber Optic operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the water, sewer, solid waste, airport and fiber optic operations, all of which are considered to be major funds of the City of Watsonville.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Watsonville's various functions. The City of Watsonville uses an internal service fund to account for insurance activities of the City. The fund predominantly benefits governmental funds rather than business-type functions, and it has been included within governmental activities in the government-wide financial statements. Conversely, the internal service fund is presented in the proprietary funds financial statements.

The basic proprietary funds financial statements can be found on pages 42 to 44 of this report.

Fiduciary fund. Fiduciary funds are used to account for resources held for the benefit of parties' outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Watsonville's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 45 to 46.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 47 to 88 of this report.

Other information. In addition to the basic financial statements and accompanying notes, required supplementary information, combining statements and schedules referred to earlier in connection with non-major governmental funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 90 to 107 of this report.

Government-wide Financial Analysis

Statement of Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Watsonville, assets

exceeded liabilities by \$240,392 at the close of the most recent fiscal year.

By far the largest portion of the City of Watsonville's net position \$202,329 reflects its investment in capital assets (e.g., land, buildings and improvements, machinery, work in progress, and infrastructure) less any related outstanding debt used to acquire those assets. The City of Watsonville uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Watsonville's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Watsonville's net position \$19,803 represent resources that are subject to external restrictions on how they may be used by creditors (such as through debt covenants), grantors, contributions or laws or regulations of other governments. The remaining balance of unrestricted net position \$18,260 is unrestricted and available for next year's operations at the direction of the City Council.

Governmental Activities. Governmental activities decreased the City of Watsonville's Net Position by a \$1,177. Key elements of this increase are as follows:

- Governmental revenues were greater than last year with increase in taxes of \$7,035. Most of this increase was due to \$2,233 increase in property taxes, \$540 in interest earnings, and \$1,117 increase in sales tax.
- Governmental expenses increased by \$12,971. The increase in General Government expenditures resulted from a \$3,297 settlement with the Airport fund, major streets projects, and the sale of an asset in housing.

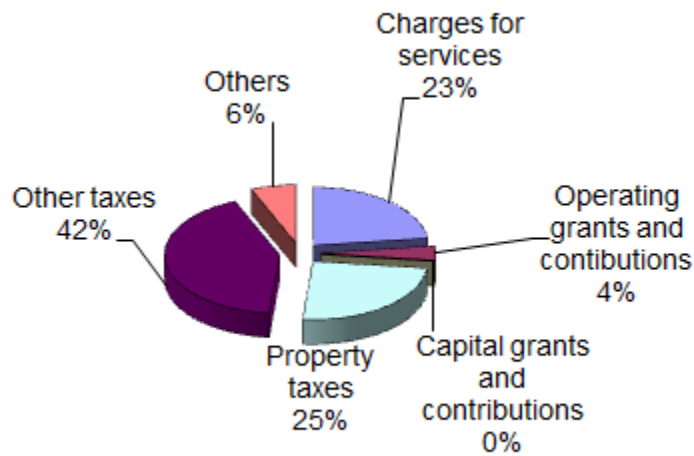

Expenses and Program Revenues

Governmental Activities

Revenues by Source

Governmental Activities

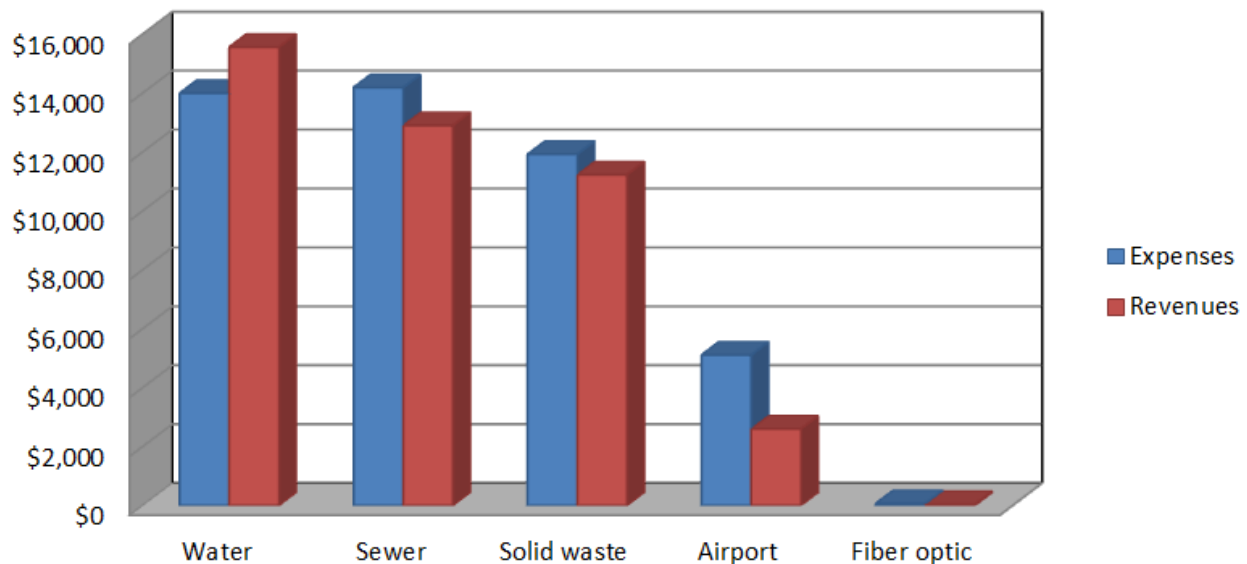

Explain Public Safety Decrease

Public safety costs decreased due to salary savings from vacant positions throughout the year.

Business-type activities. Business-type activities increased the City of Watsonville's net position by \$7,487. Key elements of this increase are as follows:

Expenses and Program Revenues

Business-type Activities

- Charges for services increased by \$7,049 and other revenue increased by \$1,031. The increase in charges for services was mostly from a rate increase for the Water, Sewer and Solid Waste Funds.
- Other revenues also increased at the airport as it booked the reward from a legal settlement. The Airport also received much more by way of grant revenue than the prior year.
- Water, Sewer and Airport funds had increases in operating costs as of the fiscal year end. Water fund had an increase of \$1,958, and Sewer fund had an increase of \$1,020. A large portion of the increase for both funds was in salary costs as demand for more services creates demand for more staff. The airport had an increase of \$1,735 driven by increased capital expenditures

Financial Analysis of the City of Watsonville's Funds

As noted earlier, the City of Watsonville uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Watsonville's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Watsonville's financing requirements. In particular, restricted fund balances for specific purposes may serve as a useful measure of a government's net resources available for spending on various activities at the end of the fiscal year.

As of the end of the current fiscal year, the City of Watsonville's governmental funds reported combined ending fund balances of \$33,388, an increase of \$137 in comparison with the prior fund balances. The largest portion of fund balances is restricted for specific purposes and the largest restricted portion is for impact fees in the amount of \$5,730. This balance is for projects that have been budgeted, planned or will be completed within the next five years. The remainders of fund balances are either non-spendable or unassigned at year end. The non-spendable portion of fund balances represents the amounts of funds that cannot be spent because they are either not in spendable form or legally required to remain intact. Unassigned fund balances represent amounts which are unconstrained in that they may be spent for any purpose.

The *General Fund* is the chief operating fund of the City of Watsonville. At the end of the current fiscal year, the charter reserve of the General Fund was \$2,450. As a measure of the General Fund's liquidity, it may be useful to compare both the charter reserve and total fund balance to total fund expenditures. The City's General Fund Reserve met the Charter Reserve this fiscal year end. The required Charter Reserve fund balance would be 5.0 percent of total general fund expenditures; the total fund balance represented 26 percent of the same amount.

The fund balance of the City of Watsonville's General Fund increase by \$337 during the current year largely due to the settlement agreement with the airport fund. The advance receivable that was written off as part of the settlement had been non-spendable fund balance, therefore, while overall General fund balance decreased, unassigned fund balance increased by \$2,801. The changes in Governmental Fund balance can be attributed to:

The General Fund decrease in fund balance was from increases in various revenue types, such as, property tax, sales tax and utility tax revenues, decrease in operating costs and cost increases over contract services and M&S.

The Impact Fees Fund had a fund balance of \$5,730, an increase of \$346 over the prior year's fund balance. This increase was due to increase in revenues and saving for future projects in fund balance.

The Housing Fund had a fund balance of \$3,869, an increase of \$342 over the prior year's fund balance. This increase is due to loan repayments during the fiscal year were greater than expenditures.

The Redevelopment and Housing Grants Fund has a negative fund balance of (\$181), a decrease of \$34 from the negative beginning fund balance. This decrease is the result of expending cash held by the fund on housing projects.

The government's Debt Service Fund had a fund balance of \$129, an increase of \$6 during the fiscal year. This increase is the result of intergovernmental funds.

Proprietary funds. The City of Watsonville's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Net position and changes of net position for the five major enterprise funds are as follows:

Proprietary Funds Change of Net Position

Fund	FY 2019	FY 2018	Change	% Change
Water	56,388	52,661	3,727	7.08%
Sewer	43,034	43,475	(441)	-1.01%
Solid Waste	4,041	2,275	1,766	77.63%
Airport	8,895	6,441	2,454	38.10%
Fiber Optic	(4)	15	(19)	-125.68%
Totals	112,354	104,867	7,487	-3.89%

Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Watsonville's business-type activities.

General Fund Budgetary Highlights

There were few mid-year budget amendments this fiscal year. The City Council added mid-year appropriations of \$3,700. The bulk of which was to pay for the settlement with the Airport. There were also appropriations of \$2,699 for new grants that increased all four General Fund divisions.

Tax revenues were \$2,144 over budget. This increase in tax revenue was due to various taxes being over budgeted amounts, particularly property and sales tax. The City received Property from the receipt of unexpected residual payments and sales tax receiving true up revenue from the state. Miscellaneous revenues were over budget by \$1,449. \$830 of which was a one-time payment from a developer agreement. General government, public safety, streets and culture and recreation expenditures were lower than expected as all divisions still held costs down due to salary savings and holding down operating costs, particularly cannabis related expenditures which were frozen for the second year in a row.

Capital Asset and Debt Administration

Capital assets. The City of Watsonville's capital assets, for its governmental and business type activities as of June 30, 2019 was \$209,447 (net of depreciation). This represents a \$669 increase from the prior year or .32%.

Total City of Watsonville Capital Assets FY 2018-19

Additional information on the City of Watsonville's capital assets can be found in Note 4 on pages 59 to 60 of this report.

Long-Term Debt. At the end of the current fiscal year, the City of Watsonville had total net debt outstanding of \$92,767. Of this amount, \$0 comprises debt that represents bonds secured solely by specific revenue sources (e.g. revenue bonds), and \$49 in special assessment debt for which the government is liable in the event of default by the property owners subject to the assessment. The other debt for governmental activities is made up of notes payable of \$2,438, debt payable of \$1,895, net OPEB liability of \$1,902, compensated absences of \$1,785, and net pension of \$56,328. Business type activities have \$296 in notes payable, \$1,343 in a loan, net OPEB liability of \$1,431, compensated absences of \$724, net pension of \$20,965 and landfill closure/post closure liability of \$3,661.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limit for the City of Watsonville is \$162,238 which is significantly in excess of the City of Watsonville's outstanding debt subject to this limit.

Additional information on the City of Watsonville's long-term debt can be found in Note 5 on pages 62 to 71 of this report.

Economic Factors and Next Year's Budget

- Potential gain of property and sales tax revenues from the improved economy and increased housing units.
- New half percent sales tax approved for seven years to fund fire and police positions and equipment will sunset in 2021.
- Increasing PERS contributions until 2033.

With all the above factors considered, the City of Watsonville future appears to be brighter than past fiscal years. Overall economic activity has improved over the last fiscal year. Housing prices have increased resulting in improved property taxes, car sales have shown consistent growth and the unemployment rate in the City has decreased to a five year low. But the City needs to be prepared for the increasing PERS rates over the foreseeable future.

All of these factors were taken into consideration during the preparation of the City of Watsonville's annual budget for the fiscal year 2019-20.

Request for Information

This financial report is designed to provide a general overview of the City of Watsonville's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Administrative Services Director, City of Watsonville, and 250 Main Street, Watsonville, CA 95076.

CITY OF WATSONVILLE, CALIFORNIA
GOVERNMENTAL FUNDS
RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL
FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

	<u>\$</u>
Amounts Reported For Governmental Activities In The Statement Of Activities Are Different Because:	
Net Change In Fund Balance - Total Governmental Funds (Page 36)	136,649
Capital Assets Transactions:	
Governmental Funds Report Capital Outlay As Expenditures	
However the cost of those assets is capitalized in the Statement of Activities	
and allocated over their estimated useful lives and reported as depreciation expense.	
The capital outlay expenditures are therefore added back to fund balance	6,643,230
Depreciation Expense is deducted from the fund balance	(5,037,998)
Long-Term Debt Proceeds and Payments:	
Debt and lease proceeds provide current Financial Resources To Governmental Funds	
but increases long-term liabilities in the Statement of Net Positions.	
The Repayment Of the Principal is an expenditure in the governmental funds,	
but in the Statement of Net Position the repayment reduces long-term liabilities.	
Proceeds from issuance of long term debt and leases	(1,540,720)
Repayment of Principal	712,241
Accrual of Non-Current Items:	
The amounts below included in the Statement of Activities do not provide or (require) the use of	
current financial resources and therefore are not reported as revenue or expenditures in	
governmental funds (net change):	
Non-current portion of Compensated Absences	(18,957)
Net pension liabilities and related deferred outflows/inflows of resources	(2,698,920)
Unavailable revenue	(1,096,428)
Internal Service Funds Are Used By Management To Charge The Costs Of Insurance To Individual Funds.	1,714,281
Interest Expense Reported In The Statement Of Activities Does Not Require The Use Of Current Financial Resources And, Therefore Is Not Reported As An Expenditure In Governmental Funds.	<u>9,263</u>
Change In Net Position Of Governmental Funds. (Page 33)	<u>(1,177,359)</u>

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

A. Reporting entity

The City of Watsonville, California was incorporated in 1868 as a charter city and operates under the Council-Manager form of government. The City provides the following services: public safety (police, fire and building inspections), highway and streets, water, sewer and solid waste services, airport, public improvements, planning and zoning, housing and general administration.

B. Government-wide and fund financial statements

The Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the primary government except for the Fiduciary fund type – Private Purpose Trust Fund. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among programs revenues are reported instead as general revenues. Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and special purpose trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the government, except those required to be accounted for in another fund.

The Impact Fees Fund is assessed at the time of development and is used to mitigate certain increased costs incurred by the government as development occurs. These funds are then used to increase the capacity of roads, build fire stations, public safety equipment, or other governmental facilities. The receipt and disbursement of these fees are recorded in this fund.

The Housing Fund is used for low and moderate-income housing projects. The fund is funded by old 20% former Redevelopment Agency's housing loans monthly payments and with loan payoffs.

The Redevelopment and Housing Grants Fund provides assistance to low and moderate-income individuals via grants. These grants offer a number of housing programs to help low to moderate income Watsonville residents improve their housing condition.

The General Debt Service Fund receives funds for the payment of governmental debt of the government.

The government reports the following major proprietary funds:

The Water Fund records the receipts of revenues for water services and records the associated expenses or capital investment. The water service provides water to Watsonville and the surrounding communities, which has a service population of approximately 50,000.

The Sewer Fund records the activity of the government's wastewater treatment plant and collection system. The fund also provides waste treatment services to other local sanitary districts, namely Freedom, Salsipuedes, and Pajaro Utility Districts. Thus, the wastewater plant services some 55,000 residents.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

The Solid Waste Fund records the activities of refuse collection, recycling, and landfill operations. The landfill is located near the County landfill and is used only by the citizens of the City of Watsonville.

The Airport Fund represents the activities at the airport and the receipts of Federal Aviation Agency (FAA) grants. The fund is to be supported by the fees the airport collects from fuel sales and facility use fees. The FAA provides substantial grant income for general airport improvements.

The Fiber Optic Fund records the activities of the City's new fiber optic system installed. The fund receives payments for use of the system.

Additionally, the government reports the following fund types:

The Internal Service Fund is used to account for financing of insurance services (workers compensation, general liability and health benefits) provided to other government funds and departments on a cost reimbursement basis.

The Private Purpose Trust Fund is used to account for the transactions of the Successor Agency of the City of Watsonville Redevelopment Agency.

As a general rule, the effect of interfund activity has been eliminated from government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water, sewer, and solid waste functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various foundations concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with proprietary funds principal ongoing operations. The principal operating revenues of the government's enterprise funds and of the government's internal service fund are charges to customers for sales and services. The government also recognizes as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and the internal service fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources, as they are needed.

The preparation of the financial statements in conformity with accounting principles generally

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

accepted in the United States of America, as prescribed by the GASB and the American Institute Of Certified Public Accountants, require management to make assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts for revenues and expenses/expenditures.

D. Assets, liabilities, and net position or fund balance

1. Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to invest in the following types of investments:

- Securities of the US Government, or its agencies
- Certificates of Deposit (or Time Deposits) placed with commercial banks and/or savings and loan institutions like institutions such as credit unions
- Local Agency Investment Fund (State Pool)
- Repurchase agreements (repos) for a term of one year or less
- Passbook Savings Account Demand Deposits
- Debt of the City of Watsonville
- Negotiable Certificates of Deposits
- Bankers' Acceptances

Investments for the government are reported at fair value. The State Treasurers Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares. The government has funds held by trustees or fiscal agents pledged to the payment or security of certain bonds and certificates of participation. The California Government Code provides that these funds, in absence of specific statutory provisions governing the issuance of bonds or certificates, may be invested in accordance with the ordinance, resolutions, or indentures specifying the types of investments the trustees or fiscal agent may make.

Cash and cash equivalents

The cash flow statements require presentation of "cash and cash equivalents". For the purposes of the statement of cash flows, the government considers all proprietary funds pooled cash and investments and cash and investments with fiscal agent as "cash and cash equivalents".

2. Receivables and payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

business-type activities are reported in the government-wide financial statements as “internal balances.”

Property taxes are levied and collected by the County of Santa Cruz and paid upon collection to the various taxing entities including the City. Property taxes are attached as an enforceable lien on property as of January 1. Taxes are levied on July 1 and are payable in two installments on December 10 and April 10. Unsecured taxes are due on July 1 and become delinquent on August 31. The City recognizes property tax revenues when they become measurable and available for the payment of claims in the current period.

3. Inventories

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

4. Land held for resale

Land held for resale is carried at the lower of cost or estimated realizable value.

5. Capital assets

Capital assets, which include property, plant and equipment, and infrastructure, (e.g., bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems), and construction in progress are recorded in the applicable governmental or business-type activities columns in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession agreement are valued at their estimated acquisition value on the date donated.

The costs for normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Infrastructure	20 to 50 years
Buildings	20 to 50 years
Improvements	20 to 50 years
Machinery and Equipment	3 to 10 years

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

6. Compensated absences

It is the government's policy to allow most employee groups to accumulate sick leave to a maximum of 1,000 hours. Sick leave accumulated above this maximum is paid to employees at 50% of such excess in December. The balance of such unused sick leave is lost and the sick leave accrual is reduced to 1,000 hours at January 1 of each year. Earned vacation time is accumulated up to two times the employee's annual accrual rate and unused vacation is paid at the employee's hourly rate upon termination.

The maximum accumulation, for fire-fighters on shift duty, of unused sick leave is 62.5 days (1,500 hours). Sick leave accumulation in any calendar year in excess of 1,500 hours shall be paid at the rate of 50% of such excess. The balance of such unused sick leave is lost and the sick leave accrual is reduced to 1,500 hours at January 1 of each year.

The City accrues for compensated absences in the government-wide and proprietary fund financial statements for which they are liable to make payment directly. The General fund, Inclusionary Housing fund, and all four of the five Enterprise funds incurred costs associated with compensated absences during the last fiscal year.

7. Interfund transactions

A description of the basic two types of the City's interfund transactions during the fiscal year and the related accounting policies are set forth as follows:

1. Transactions related directly to services rendered, or facilities provided, are recorded as revenues in the fund providing the service or facility and expenditures (or expenses) in the fund receiving them.
2. Transactions to allocate resources from one fund to another, not contingent on the occurrence of specific expenditures in the receiving fund, are recorded appropriately as transfers in and transfers out in the respective funds.

8. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bond using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

9. Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, “*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*,” and GASB Statement No. 65, “*Items Previously Reported as Assets and Liabilities*,” the City recognizes deferred outflows and inflows of resources.

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. The City has one item which qualifies for reporting; see Note V.E. for a detailed listing of the deferred outflows. In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. A deferred inflow of resources is defined as an acquisition of net position by the City that is applicable to a future reporting period. The City has one item which qualifies for reporting in this category; refer to Note V. E. for a detailed listing of the pension related deferred inflows of resources the City has recognized.

10. Fund balances

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory) or legally required to remain intact (such as notes receivable on principal of a permanent fund).

Restricted Fund Balance – represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance – represents amounts that can only be used for a specific purpose because of a formal action by the City’s governing board (ordinance). Committed amounts cannot be used for any purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purpose with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance – represents amounts which the City intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent maybe stipulated by the government board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purpose in accordance with the nature of their type or the fund’s primary purpose. An assignment within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purpose of the City.

Unassigned Fund Balance – represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

funds might report a negative balance in this classification because of commitments made, which include future funding sources for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balance are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

11. Net Position

GASB Statement No. 63 requires that the difference between assets added to the deferred outflows of resources and liabilities added to the deferred inflows of resources be reported as net position. Net position is classified as either net investment in capital assets, restricted, or unrestricted.

Net position that is *net investment in capital assets* consist of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. *Restricted net position* is the portion of net position that has external constraints placed on it by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. *Unrestricted net position* consists of net position that does not meet the definition of net investment in capital assets or restricted net position.

II. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all governmental funds. All annual appropriations lapse at fiscal year-end.

On or before March 31 of each fiscal year, all departments of the City of Watsonville are required to submit requests for appropriations to the government's management so that a budget may be prepared. Before May 31 the proposed budget is presented to the government's council for review. The council holds public hearings and a final budget must be prepared and adopted no later than June 30.

The appropriated budget is prepared by fund, department, and division. The government department heads may make transfers of appropriations within a department. Transfers of appropriations between funds require the approval of the City Manager. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The council made several supplemental budget appropriations during the fiscal year. The general fund budget was increased by \$5,934,932 during the fiscal year. The large portion of this was within the mid-year budget review for \$3,700,606. The mid-year adjustments included the Airport Settlement in the amount of \$3,297,055.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

The remainders of the increase were grants that increased all four General Fund divisions. City also increased non major special revenue funds appropriations by \$2,089,037 during the year. The mid-year adjustment was for \$137,474 and the rest were grant increases.

Encumbrance accounting is employed in governmental funds. The commitments will be re-appropriated and honored during the subsequent fiscal year. Encumbrances were as follow at fiscal year-end: General Fund – \$1,249,572, Impact Fee Fund - \$85,470, Housing Fund - \$102,557, Redevelopment and Housing Grants Fund - \$9,059 and Other Governmental Funds - \$1,491,658.

B. Excess of expenditures over appropriations

For the fiscal year ended June 30, 2019, expenditures exceeded appropriations in the following funds: Housing Fund (\$743,199), Debt Service Fund (\$336,732), Library Fund (\$205,427) Retirement Tax Special Revenue Fund by (\$938). These funds had excess fund balance to cover these costs.

C. Deficit fund equity

These special revenue funds had the following deficit fund balances: Redevelopment and Housing Grants Fund of (\$181,066), Parking Garage Fund of (\$451,235) and the Enterprise Funds had the Fiber Optic Fund by (\$3,852) as of June 30, 2019. The special revenue funds will make these deficits up with future special revenue funds and the Fiber Optic Fund will increase its charges to its users in the future.

III. Detailed notes on all funds

A. Cash and investments

Cash and investments (including monies held by trustees and fiscal agents) as of June 30, 2019 were as follows:

<u>Cash:</u>		
Demand Deposits	\$ 4,686,973	
Outstanding Checks	(2,449,074)	
Deposits in Transit	<u>240,588</u>	
Net Demand Deposits	2,478,487

---------------------------------------	---------------------

The City of Watsonville categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City of Watsonville has the following fair value measurements as of June 30, 2019:

	Fair Value Measurement Using Quoted Prices In Active Market for Identical Assets		
Investment by fair value level	<u>Total</u>	<u>Exempt</u>	<u>(Level 1)</u>
Assessment Bonds	49,000		49,000

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

POOLED DEPOSITS/CREDIT RISK:

The California Government Code requires California banks and savings and loan associations to secure a government's deposits by pledging government securities as collateral. The fair value of pledged securities must equal at least 110% of a government's deposits. California law also allows financial institutions to secure government deposits by pledging first trust deed mortgage notes having a value of 150% of the government's total deposit.

The government may waive collateral requirements for deposits, which are fully insured up to \$250,000 by federal depository insurance.

At June 30, 2019, the government carrying amount of deposits and cash on hand was \$2,500,496 and bank balances were \$4,686,973. Bank balances in excess of the FDIC insurance limitations are fully collateralized by the Bank by pledging identified U.S. Government securities.

D. Interfund receivables, payables, and transfers

The composition of interfund activities as of June 30, 2019, is as follows:

Due from/to other funds

Current interfund balances arise in the normal course of business and are expected to be repaid shortly after the end of the fiscal year. Due from/to other funds balances at June 30, 2018 were as follows:

	<u>Due from other funds</u>	<u>Due to other funds</u>
Governmental Funds:	\$	\$
General	773,685	-
Redevelopment & Housing Fund	-	298,249
Nonmajor Funds	-	<u>475,436</u>
Total Governmental Funds	<u>773,685</u>	<u>773,685</u>
Total Government	<u>773,685</u>	<u>773,685</u>

The General fund covered the current cash shortfall for other non-major special revenue funds and enterprise funds.

Advances receivable/payable

Long-term interfund balances arise in the normal course of business and are not expected to be repaid during the next fiscal year. Advances receivable/payable funds balances at June 30, 2018 were as follows:

	<u>Advances Receivable</u>	<u>Advances Payable</u>
Governmental Funds:	\$	\$
General	101,674	4,799,874
Impact Fees	262,074	-
Nonmajor Funds	<u>446,394</u>	-

Housing Fund	115,019	-	148,771	-	-	263,790
Nonmajor Funds	4,256,690	-	311,484	59,488	-	4,627,662
Water Fund	-	-	24,113	5,056	-	29,169
Sewer Fund	-	-	178,724	5,056	5,713	189,493
Airport Fund	-	-	-	5,056	-	5,056
Solid Waste Fund	-	-	36,829	5,056	5,953	47,838
Total Transfer In	4,376,709	106,441	840,918	133,195	35,958	5,493,221

The government approved various interfund transfers within its budget for various recommencements such as the transfer from the Retirement Fund to the General Fund for recommencements of General Fund employee's retirement costs, the transfer from the CDBG Fund to the General Fund for the recommencements of qualified recreations staff costs and recommencements of debt payments to the Debt Service Fund. The General Fund also transferred 20% of its reimbursement from the Successor Agency to the Successor Agency Housing Fund as required by state law.

E. Leases

Operating lease

The government has entered into a non-cancellable operating lease for 911 and public safety dispatching services with Santa Cruz Consolidated Emergency Communications Center. Total cost for the lease was \$50,301 for the fiscal year ended June 30, 2019. The future minimum lease payments as of June 30, 2019 are as follows:

Fiscal	
Year Ending

Total	<u>757,013</u>

F. Long-term debt

The government's long-term debt obligations are repaid by the following funds: Revenue Bonds from the Solid Waste Enterprise Fund; Capital Leases; the Airport Enterprise Fund; and the City's Debt Service Fund.

Revenue Bonds

Revenue bonds constitute special obligations of the government solely secured by a lien on and pledge of the net revenues of the solid waste system. The revenue bonds are collateralized by the revenue of the solid waste system and the various special funds established by the bond ordinances. There is no defeased debt outstanding. These bonds were paid off in this fiscal year ending June 30, 2019.

Solid Waste Revenue Refunding Bond Series 2009

On September 25, 2009, the government issued \$5,444,243 in Solid Waste Refunding Bonds with interest rates ranging from 4.1% to 4.3% to refund the outstanding 1998 Solid Waste Revenue Bonds with interest rates ranging from 4.625% to 5.05%, \$2,075,000 of outstanding 1996 Solid Waste Revenue Bonds with interest ranging from 5.3% to 5.5% and to purchase land for \$1,988,518. These bonds were paid off in this fiscal year ending June 30, 2019.

Limited obligation bonds

Limited obligation bonds consist of bonds issued for improvements in special assessment districts and are secured by liens against the assessed property. The government has agreed to establish certain reserve funds and to act as agent for property owners with respect to payment of debt service. In the event of delinquency, however, the government is not obligated to retire bonds from available funds or to bring legal action against property holders.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

Due to Governmental Accounting Standards Board Statement No. 6, the City must include its assessment bonds payable within the Government-wide Statements. However, the City of Watsonville has incurred no financial liability due to Assessment District Bonds. In the case of default, the government has authority to foreclose on the delinquent account.

Limited obligation bonds payable at June 30, 2019 consist of the following:

	<u>Amount</u>
	\$
\$738,448 Atkins Lane assessment district bonds due in annual principal installments ranging from \$944 to \$4,000 through September 2020, interest rate is 6.5%.	<u>49,000</u>
Total limited obligation bonds payable at June 30, 2019	<u>49,000</u>

The annual requirements to repay all limited obligation bonds outstanding as of June 30, 2019 are:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Debt Service</u>
	\$	\$	\$
2020	<u>49,000</u>	<u>3,185</u>	<u>52,185</u>
Total	<u>49,000</u>	<u>3,185</u>	<u>52,185</u>

Debt payable (Direct Borrowing)

On April 13, 2012, the government entered into a commercial term loan with Santa Cruz County Bank to finance the cost of installing solar panels through the City of Watsonville. The total amount for which the government is obligated under the loan was \$3,014,285. Installation of the solar panels was completed in the 2012/13 fiscal year.

Interest rate for the loan is 5.29% with principal payments ranging from \$195,929 to \$282,376 through fiscal year 2027.

The annual requirements to amortize the loan outstanding as of June 30, 2019 is as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Debt Service</u>

State Water Resources Control Board Loan (Direct Borrowing)

On December 18, 2015 the city entered into an agreement with California State Water Resource Board for a Clean Water State Revolving Fund loan to finance the Manana Lanes Sewer project. The amount of the loan is \$1,486,310. Interest rate for the 20 year loan is 1.6% with principal payments ranging from \$69,004 to \$87,062.

The City's outstanding debt under the California State Water Resources Control Board are secured by a pledge of revenues from the Sewer Enterprise Fund. Event of default include non-payment of interest or principal when due. The City shall have 10 days to clear any default. A penalty of highest legal rate of interest from date of default will be added for each charge, fees, taxes, assessments tools or other charges or imposed by the Recipient of non-payment. There have been no events of default since the loan was issued.

The annual requirements to amortize the loan outstanding as of June 30, 2019 is as follows:

Municipal landfill closure and post-closure liability and requirements

The government operates a landfill solely for the disposal of Watsonville resident's solid waste. The landfill is regulated by the California Integrated Waste Management Board, which requires that the government set aside certain funds for the landfill's eventual closure. As of June 30, 1998, the government's Solid Waste Division had completed the closure of the old landfill cell and recognized \$403,773 of expenditures to complete the closure. The government is now operating a new cell, which was expected to provide landfill capacity for 23 years with an estimated post-closure cost of \$1,591,230.

The government recognizes a portion of the closure and post-closure care costs in each operating period. The amount recognized each year to date for the new landfill is based on the landfill capacity used as of the balance sheet date. As of June 30, 2019, the new landfill cell had used 94.3% of its projected space. The estimated closure and post-closure costs were \$1,909,476 and \$1,591,230. The estimated remaining closure and post-closure costs are \$108,609 and \$90,507, which will be recognized as the remaining capacity is used (estimated to be 0.6 years). To date, the fund has \$359,430 for post closure costs for the closed phase I and II cells and has set aside closure costs of \$1,800,867 and post-closure costs of \$1,500,723 for the open phase III cell for a total of \$3,661,020. The estimated costs of closure and post-closure care are subject to changes such as the effects of inflation, revision of laws and other variables.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

NET OPEB LIABILITY

Starting July 1, 2015, the City ceased to pay cash subsidies for retirees. The retirees pay the full amount of their CSAC IEA premiums. The medical/drug implicit subsidy was the only source of liability related for OPEB. Since there is no cash subsidy, as of June 30, 2019, the net OPEB liability was calculated to be immaterial for GASB#75 presentation purposes. However, Management decided to still reflect the net OPEB liabilities of \$1,901,953 as part of the long-term liabilities in the City's Statement of Net Position.

CAPITAL LEASE (Direct Borrowing)

On March 12, 2018 the city entered into an Equipment Lease Purchase agreement with Community First National Bank for the purchase of a Rosenbauer EXT Aerial Tiller Fire Truck. The amount of the Lease was \$1,291,081. Interest rate for the 5 year lease is 3.544% with principal lease payments ranging from \$249,076 to \$276,507.

If the Lessee should default under any of the provisions hereof, the lessor may charge interest on all amounts due at 10% per annum or the maximum amount permitted by law, whichever is less. There have been no events of default since the lease was issued.

The annual requirement to amortize the lease outstanding as of June 30, 2019 is as follows:

Lease Payment Date	Principal	Interest	Debt Service	Purchase Option
<u>March 12</u>	<u>\$</u>	<u>\$</u>	<u>\$</u>	<u>\$</u>
2020	249,076	37,231	286,307	817,483
2021	257,903	28,404	286,307	554,422

General Fund, Library Fund Sewer Fund, Water Fund, Airport Fund and Solid Waste Fund all were required to pay their portion of costs related to other Net OPEB Liabilities and Pension Liabilities.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

IV. Other information

A. Risk management

The government is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The government also provides health insurance coverage to employees. There have been no significant reductions in insurance coverage for any risk of loss in the past fiscal year, and settled claims have not exceeded the commercial coverage in any of the past three fiscal years. The government has established a risk management fund to account for and finance its uninsured risks of loss.

The government's risk management programs provide coverage for up to a maximum of \$150,000 for each Workers' Compensation claim; \$500,000 for each General Liability claim. The government purchases commercial insurance for claims in excess of coverage provided by the self-insurance programs. There have been no significant changes in insurance coverage as compared to last fiscal year.

All funds of the government participate in the self-insurance programs. The employee health insurance program is funded by contributions of a flat rate per employee to the self-insurance fund. Other self-insurance programs are funded by budgeted appropriations. Funding is estimated to provide amounts needed to pay prior and current fiscal year claims and to establish reserves for catastrophic losses.

Liabilities in the self-insurance Internal services fund at June 30, 2019 totaled \$3,097,588 as follows: Health Benefits \$111,294; General Liability \$554,930; and Workers' Compensation \$2,431,364.

The basis for estimating incurred but not reported claims is based on the statute of limitation on accepting claims as follows:

Health Benefits are estimated at 2 times the current fiscal year's average monthly cost, General Liability is estimated at 6 months of current fiscal year's average monthly claim cost, and Workers' Compensation is estimated by using the last two weeks of current fiscal year's average monthly claim cost.

	<u>2017-18</u>	<u>2018-19</u>
Claims incurred but not reported:	\$	\$
Beginning	568,469	721,123

Total claims	<u><u>3,790,575</u></u>	<u><u>3,097,588</u></u>

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

B. Public entity risk pool

In November 1994, the government became a member of the Public Agency Risk Sharing Authority of California (PARSAC), formerly known as California Municipal Insurance Authority (CMIA). PARSAC, a consortium of 36 California cities, which was established in May 1986 to pool resources, share risks, purchase excess insurance, and to share costs for professional risk management and claims administration. The Authority's governing board consists of one appointed official and an alternate from participating cities.

General liability

The City is self-insured for general liability claims up to \$500,000 (effective November 11, 1994) for each occurrence. Coverage for individual losses in excess of \$500,000, up to \$10,000,000 is provided through the Public Risk Sharing Authority of California (PARSAC). Under this program, members share in losses between the members' individual self-insured retention and \$1,000,000 under a risk sharing pool program; and from \$1,000,000 to \$10,000,000, coverage is provided by another risk pool, CARMA.

Estimates for all liabilities have been accrued in the Self-Insurance Internal Service Fund, which included an estimate for incurred but not reported claims. At June 30, 2019, total estimated claims payable for General Liability were \$554,930.

C. Commitments and Contingencies

Litigation

Various claims and lawsuits are pending against the government. In the opinion of government management, the potential claims loss will not be significant to the government's financial statements.

Grant audits

The government receives grants for specific purposes that are subject to review and audit by grantor agencies. Such audits could result in a request for reimbursement by the grantor for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of City management, such disallowance, if any, will not be significant.

Contingency

Proposition 218, which was approved by the voters in November 1996, regulates the government's ability to impose, increase and extend taxes, assessments and fees. Any new, increased or extended taxes, assessments, and fees subject to the provisions of Proposition 218 require voter approval before they can be implemented. Additionally, Proposition 218 provides that these taxes, assessments, and fees are subject to the voter initiative process and may be rescinded in the future by the voters. Therefore, the government's ability to finance the services for which the taxes, assessments and fees were imposed may be significantly impaired. Certain language in the initiative is unclear as to the scope and impact of the proposition. Future court rulings or state legislation may clarify these issues. At this time it is uncertain as to the effect that Proposition 218 will have on the government's ability to maintain or increase the revenue it receives from taxes, assessments and fees, or its effect on interfund payments in lieu of taxes and

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

transfers of surplus funds from enterprise funds to the general fund. Also unclear is the extent to which a 1995 California Supreme Court ruling (the *Guardino* case) upholding the voter approval requirements of a previously enacted state initiative (Proposition 62) is applicable to prior periods. However, because the City of Watsonville is a Charter City, management believes that the *Guardino* ruling does not apply to its general law application in the cited case.

D. Post-employment health care benefits

Retiree benefits - COBRA benefits

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the government provides health care benefits to eligible former employees and their eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium plus a 2% administration fee is paid in full by the insured on or before the tenth day of the month for the actual month covered. This program is offered for a duration between 18 and 36 months, after the termination date, depending on circumstances related to eligibility to Medicare, death or divorce. During the last fiscal year two former employees participated in the program.

E. Defined benefit pension plans

1. CALPERS miscellaneous employees plan

A. General Information about the Miscellaneous Pension Plan

Plan Description

All qualified permanent and probationary miscellaneous employees are eligible to participate in the City's Miscellaneous Employee Pension Plan, agent multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employees. Benefit provisions under the Plan is established by State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 55 with statutorily reduced benefits. All members are eligible for nonduty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

The Plans' provisions and benefits in effect at June 30, 2019, are summarized as follows:

		<u>Miscellaneous</u>	
	Prior to	After	After
Hire Date	July 1, 2011	July 1, 2011	January 1, 2013
Benefit Formula	2% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years of service	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	55	60	62
Monthly benefits, as a % of			
eligible compensation	1.43% to 2.42%	1.09% to 2.42%	1% to 2.5%
Required employee contribution rates	7%	7%	5.5%
Required employer contribution rates	6.842%	6.842%	6.842%
Employees Covered – At June 30, 2019, the following employees were covered by the benefit terms for the Plan			

	<u>Miscellaneous</u>
Inactive employees or beneficiaries currently receiving benefits	292
Inactive employees entitled to but not yet receiving benefits	277
Active employees	<u>287</u>
Total	<u>856</u>

Contributions - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Contributions to the pension plan from the City were \$3,756,236 for the fiscal year ended June 30, 2019.

B. Net Pension Liability

The City's net pension liability for the plan is measured as the total pension liability less the pension plan's fiduciary net pension. The net pension liability of the Plan is measured as of June 30, 2018, using an annual actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below:

Actuarial Assumptions – The total pension liabilities in the June 30, 2017 actuarial valuations were determined using the following actuarial assumptions:

	<u>Miscellaneous</u>
Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry-Age Normal Cost Method

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

Actuarial Assumptions:

Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	Varies by Entry Age & Service
Projected Salary Increase	3.3% - 14.2 (1)
Investment Rate of Return	7.5 % (2)2
Mortality	Derived using CALPERS Membership Data for all funds

(1) Depending on age, service and type of employee

(2) Net pension plan investment expenses, including inflation

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, valuation were based on the results of a 2017 actuarial experience study for the period 1997 to 2015. Further details of the Experience Study can be found on the CalPERS website.

GASB No. 68, paragraph 68 states that the long term expected rate of return should be determined net of pension plan investment expense, but without reduction for pension plan administrative expenses.

Change in Assumption:

For the measurement date of June 30, 2018, the inflation rate reduced from 2.75% to 2.50%.

Discount Rate:

The discount rate used to measure the total pension liability was 7.15% for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15% will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using

historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1-10(a)</u>	<u>Real Return Years 11+(b)</u>
Global Equity	50%	4.80%	5.98%
Global Fixed Income	28	1.00	2.62
Inflation Sensitive	-	0.77	1.81
Private Equity	8	6.30	7.23
Real Estate	13	3.75	4.93
Liquidity	1	-	(0.92)

(a) An expected inflation of 2.0% was used for this period.

(b) An expected inflation of 2.92% was used for this period.

Changes in the Net Pension Liability

The changes in the Net Pension Liability for the Plan as follows:

Miscellaneous Plan:

	<u>Increase (Decrease)</u>		
	<u>Total Pension Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Net Pension Liability (Asset)</u>
Balance at June 30, 2017	\$ 140,912,706	\$101,243,607	\$ 39,669,099
Change in the year:			
Service cost	2,696,646	-	2,696,646
Interest on the total pension Liability	9,872,907	-	9,872,907
Change of Assumptions	(617,380)	-	(617,380)

Balance at June 30, 2018	<u>\$ 146,365,189</u>	<u>\$108,190,702</u>	<u>\$ 38,174,487</u>

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the City for the Plan, calculated using the discount rate for the Plan, as well as what the City’s net pension liability would be if it were calculated using a discount rate that is 1-percent point lower or 1-percent point higher than the current rate:

	<u>Miscellaneous</u>
1% Decrease	6.15%
Net pension liability	\$ 58,261,579
Current Discount Rate	7.15%
Net pension liability	\$ 38,174,487
1% Increase	8.15%
Net pension liability	\$ 21,593,345

Pension Plan Fiduciary Net Pension – Detailed information about the pension plan’s fiduciary net position is available in the separate issued CalPERS financial report.

F. Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pension

For the fiscal year ended June 30, 2019, the City recognized pension expense of \$5,402,660. At June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions subsequent to measurement date	\$3,756,236	\$ -
Changes in assumptions	3,611,804	(450,521)
Difference between expected and actual experience		(712,330)
Net difference between projected and actual earnings on plan investments	<u>318,598</u>	<u>-</u>
Total	<u>\$ 7,686,638</u>	<u>\$(1,162,851)</u>

The amount of \$3,756,236 was reported as deferred outflows of resources related to contributions subsequent to the measurement date of the net pension liability/collective net pension liability but before the end of the employer’s governmental non-employer contribution

entity’s reporting period will be recognized as a reduction of the net pension liability/collective net pension liability in the subsequent fiscal period rather than in the current fiscal period. Other amounts reported as deferred outflows of resources and deferred inflows of resources to pensions will be recognized as pension expense as shown on the following page:

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

Fiscal Year ended <u>June 30</u>	Annual <u>Amortization</u>
2020	\$2,996,365
2021	\$1,296,037
2022	\$(1,251,587)
2023	<u>\$(273,264)</u>
Total	<u><u>\$2,767,551</u></u>

G. Payable to Pension Plan

At June 30, 2019, the City had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2019.

2. CALPERS safety (police & fire) employees plan

A. General Information about the Pension Plan

Plan Descriptions

All qualified public safety permanent and probationary employees are eligible to participate in the City's Safety Employee Pension Plan, cost-sharing multiple employer defined benefit plans

(Continued administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and City resolution. CalPERS issues

publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonduty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019(Continued)

The Plans' provisions and benefits in effect at June 30, 2019, are summarized as follows:

	Safety		
	Prior to	After	After
Hire Date	July 1, 2011	July 1, 2011	January 1, 2013
Benefit Formula	3% @ 50	3% @ 55	2.7% @ 57
Benefit vesting schedule	5 years of service	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50	55	57
Monthly benefits, as a % of eligible compensation	3%	2.4% to 3.0%	2% to 2.7%
Required employee contribution rates	9%	9%	12%
Required employer contribution rates	20.556%	17.614%	12.141%

Contributions - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the fiscal year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Contributions to the pension plan from the City were \$4,006,904 for the fiscal year ended June 30, 2019.

**B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of
Resources Related to Pensions**

At June 30, 2019, the City reported a liability of \$39,118,450 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial CITY valuation as of June 30, 2017. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all Pension Plan participants, actuarially determined. At June 30, 2019, the City's proportion was 0.669%.

For the fiscal year ended June 30, 2019, the City recognized pension expense of \$6,526,695 together with \$5,402,660 for Miscellaneous plan, the total pension expense for the City is \$11,929,355. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits.

At June 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources on the next page:

OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
City contribution subsequent to the measurement date	\$4,006,904	\$ -
Difference between actual and expected experience	840,524	(3,188)
Changes in assumptions	3,838,202	(517,842)
Net difference between projected and actual earnings on plan investments	264,850	-
Changes to proportion	948,011	(109,655)
Difference between City contributions and proportionate share of contribution	-	(841,349)
Total	<u>\$9,898,491</u>	<u>\$(1,472,034)</u>

The amount of \$4,006,904 was reported as deferred outflows of resources related to contributions subsequent to the measurement date of the net pension liability/collective net pension liability but before the end of the employer's governmental nonemployer contribution entity's reporting period will be recognized as a reduction of the net pension liability/collective net pension liability in the subsequent fiscal period rather than in the current fiscal period.

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

Change in Assumption:

In 2018, the accounting discount rate was reduced from 7.65% to 7.15%.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in the pension expense as follows:

	<u>Safety Plan</u>	<u>Miscellaneous Plan</u>	<u>Total</u>
Fiscal			
Year ended	Annual	Annual	Annual
<u>June 30</u>	<u>Amortization</u>	<u>Amortization</u>	<u>Amortization</u>
2020	\$3,529,312	\$2,996,365	\$6,525,677
2021	2,121,687	1,296,037	3,417,724
2022	(960,492)	(1,251,587)	(2,212,079)
2023	<u>(270,954)</u>	<u>(273,264)</u>	<u>(544,218)</u>
Total	<u>\$4,419,553</u>	<u>\$2,767,551</u>	<u>\$7,187,104</u>

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions:

	<u>Safety</u>
Valuation date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation Rate	2.50%
Salary Increase	Varies by Entry Age and Service
Investment Rate of Return	7.15% Net Pension Plan Investment And Administrative Expenses: Includes Inflation
Mortality	Derived using CalPERS' Membership Data for all Funds (1)
Post-Retirement Benefits Increase	Contact COLA up to 2.75% until Purchase Power Protection Allowance Floor on Purchasing Power applies: 2.75% thereafter

- (1) The mortality table used was developed based on CalPERS' specific date. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table please refer to the 2017 experience study report.

Discount Rate:

The discount rate used to measure the total pension liability was 7.15% for the Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15% will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

C. Payable to Pension Plan

At June 30, 2019, the City had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2019.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

F. New Accounting Pronouncements

New Pronouncements

In 2019, the City adopted new accounting and reporting standards in order to conform to the following Governmental Accounting Standards Board (GASB) Statements:

GASB Statement No. 83, *Certain Asset Retirement Obligations* (GASB Statement No. 83), addresses accounting and financial reporting for certain assets retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. GASB Statement No. 83 requires the current value of a government's AROs to annually be adjusted for the effects of general inflation or deflation, and relevant factors that may significantly change the estimated asset retirement outlays. This statement also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. GASB Statement No. 83 is effective for the City's fiscal year ending June 30, 2019. This statement had no impact on the City's financial statements.

GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements* (GASB Statement No. 88), improves the information that is disclosed in the notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. It requires that additional essential information related to debt be disclosed in the notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. GASB Statement No.88 is effective for the City's reporting periods beginning after June 15, 2018.

Future governmental Accounting Standards Board (GASB) Pronouncements

GASB Statement No. 84 – In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The City has not determined its effect on the financial statements.

GASB Statement No. 87 – In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

recognized as inflows of resources or outflows of resources based on payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The City has not determined its effect on the financial statements.

G. Successor Agency Private-Purpose Trust Fund for Assets of former Redevelopment Agency of the City of Watsonville.

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 ("Bill") that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City of Watsonville that previously had reported a redevelopment agency within the reporting entity of the City as a blended component unit.

The Bill provides that upon dissolution of a redevelopment agency, either the city or other unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local governments. On January 10, 2012, the City Council elected to become the Successor Agency for the former redevelopment agency in accordance with the Bill as part of City.

Resolution Number 4-12.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence as the date of the dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

Successor agencies are allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

The Bill directs the State Controller of the State of California to review the propriety of any transfers of assets between redevelopment agencies and other public bodies that occurred after January 1, 2011. If the public body that received such transfers is not contractually committed to a third party for the expenditure or encumbrance of those assets, the state Controller is required to order the available assets to be transferred to the public body designated as the successor agency by the Bill.

Management believes, in consultation with legal counsel, that the obligations of the former redevelopment agency due to the City are valid enforceable obligations payable by the successor agency trust under the requirements of the Bill. The City's position on this issue is not a position of settled law and there is considerable legal uncertainty regarding this issue. It is reasonably

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

possible that a legal determination may be made at a later date by an appropriate judicial authority that would resolve this issue unfavorably to the City.

In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011) all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012. After the date of dissolution, the assets and activities of the dissolved redevelopment agency are reported in a fiduciary fund (private-purpose trust fund) in the financial statements of the City.

The following is a schedule of long-term liabilities for the fiscal year ended June 30, 2019:

	<u>Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u>	<u>One Year</u>
	\$	\$	\$	\$	\$
Refunding tax allocation bonds	11,895,000	-	(1,195,000)	10,700,000	1,225,000
Add:					
Bond Premium	<u>1,383,689</u>	<u>-</u>	<u>(87,830)</u>	<u>1,295,859</u>	<u>-</u>
Total Bonds	13,278,689	-	(1,282,830)	11,995,859	1,225,000
Debt payable	56,260	-	(56,260)	-	-
Net OPEB liability	64,461	-	-	64,461	-
Notes payable	<u>3,182,553</u>	<u>-</u>	<u>(476,576)</u>	<u>2,725,854</u>	<u>900,000</u>
Total	<u>16,581,963</u>	<u>-</u>	<u>(1,815,666)</u>	<u>14,786,174</u>	<u>2,125,000</u>

Tax allocation refunding bonds

In June of 2004 the former Redevelopment Agency of the City of Watsonville issued tax allocation bonds in three series as follows:

1. Series A - \$19,000,000
2. Series B-1 - \$2,310,000
3. Series B-2 - \$4,635,000

In April of 2016 the Successor Agency issued \$11,790,000 2016 Tax Allocation Refunding Bonds, Series A and \$2,420,000 2016 Tax Allocation Refunding Bonds, Taxable Series B for a current refunding of the \$14,190,000 2004 Tax Allocation Bonds Series A and B-1 and \$2,720,000 Tax Allocation Taxable Series B-2 Bonds. The Series A refunding bonds had \$2,965,772 of additional funding and Series B had \$410,577 of additional funding. The refunding was done to reduce future debt service payments. The transaction resulted in an economic gain of \$3,269,616 and a reduction of \$3,856,103 in future debt service payments and accounting loss of \$232,058 which is shown as a deferred outflow of resources to be amortized over the life of the bonds.

CITY OF WATSONVILLE, CALIFORNIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2019 (Continued)

The annual requirements to amortize the loan outstanding as of June 30, 2019 is as follows:

Series A:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Debt Service</u>
	\$	\$	\$
2020	1,225,000	444,825	1,669,825

2034	<u>390,000</u>	<u>5,850</u>	<u>395,850</u>
Total	<u>10,700,000</u>	<u>2,224,588</u>	<u>12,924,588</u>

Net OPEB Liability

As of the transfer of the former Agency assets to the Successor Agency, the Net OPEB liability was \$64,461. This amount will be reduced by an allocation of future costs incurred by the City from former staff members of the former Agency.

Notes Payable

The City and former Agency had several notes payable from the former Agency to the City for various costs and fees associated with the construction of the Civic Plaza as follows:

Parking Garage Loan for Construction Costs	\$3,236,651
--	-------------

The State of California deemed these notes as non-enforceable obligation, and the city could not be paid back until a finding of completion was received from the State's Department of Finance, which the City received on February 21, 2014 and the Successor Agency's oversight board made a finding that the notes were for legitimate redevelopment purpose. The Oversight Board also made the finding for all the above notes. The Department of Finance again deemed the notes as non-enforceable. During the last fiscal year the City won the litigation and the above notes will be paid back when funds become available. The notes are allowed to add interest based on the State of California Local Agency Investment Fund's (LAIF) monthly interest rate. Interest has been projected for the debt service at the most recent rate available.

City of Watsonville, California

Nonmajor Governmental Funds

Special Revenue Funds

Gas Tax

The City of Watsonville receives various revenues from taxes imposed on the sale of gasoline. These funds are to be used for maintaining and improving Watsonville's roads and transportation system.

Narcotics Assets Seizure

Federal and State law authorize the seizure of assets used in the sale of illegal drugs. The proceeds from these seizures are to be used to further Police enforcement. These monies are accounted for in this fund.

Business Development

This fund collects a business license surcharge and downtown property tax assessment which is then remitted to the Chamber of Commerce and Economic Development for their respective purposes.

Economic Development

Funds held for economic development. The fund receives interest income and loan payoffs that are used to support economic development.

Library

The Library Fund receives sales tax, grants, donations and state subventions for the advancement of the Library in Watsonville. This fund receives such revenues and records their expenditures.

Parks Development

This fund's revenues are grants, park development impact fees and 1972 Landscape and Lighting Assessment fees. These funds are used to acquire, improve and maintain the government's parks.

Retirement Tax

The City of Watsonville participates in the California Public Employees Retirement System. The government's contribution for General Fund employees is funded by a voter approved property tax override. The tax is collected in this fund and then used to pay for appropriate retirement expenses.

(Continued)

City of Watsonville, California

Nonmajor Governmental Funds

Special Revenue Funds

Parking Garage

This fund is used to record operating costs used to maintain the government's parking garage downtown.

Measure G

This fund was established in 2014, the Citizens of Watsonville approved an additional sales tax of .5% for seven years to increase funding for public safety.

Abandoned Vehicle

The government has assigned a Watsonville Police Department Service Specialist to aggressively enforce all State laws and City of Watsonville Ordinances pertaining to the abatement of all abandoned, wrecked, dismantled, inoperative vehicles or parts from any and all private or public properties. This fund collects State and County funds used to pay for these services.

Inclusionary Housing

The government levies an impact fee on all market rate housing development, which either requires a specified number of below market housing units be created or the payment of a fee. This fund collects those fees and uses them to create low-income housing.

SB 1 Gas Tax

This fund was established in 2017, which increased the gas tax by \$0.12 per gallon, increased the diesel fuel tax by \$0.20 per gallon, increased the sales tax on diesel fuels by an additional 4 percentage points, created an annual transportation improvement fee, and created an annual zero-emission vehicles fee.

Measure D

This fund was established in 2017, Measure D is a comprehensive and inclusive package of transportation improvements passed in November 2016 by over 2/3 of Santa Cruz County voters. This ½-cent sales tax guarantees every city and the county a steady, direct source of local funding for local streets and road maintenance, bicycle and pedestrian projects (especially near schools), safety projects, and transit and paratransit service, as well as numerous essential transportation projects and programs throughout the county.

STATISTICAL SECTION

This part of the City of Watsonville’s comprehensive annual financial report presents detailed information as a context for the understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

Contents	Page
Financial Trends	109
These schedules contain trend information to help the reader understand how the city’s financial performance and well-being have changed over time.	
Revenue Capacity	114
These schedules contain information to help the reader assess the City’s most significant local revenue source, the property tax.	
Debt Capacity	119
These schedules present information to help the reader assess the affordability of the city’s current levels of outstanding debt and the city’s ability to issue additional debt in the future.	
Demographic and Economic Information	123
These schedules offer the demographic and economic indicators to help the reader understand the environment within which the city’s financial activities take place.	
Operating Information	126
These schedules contain service and infrastructure data to help the reader understand how the information in the city’s financial report relates to the services the city provides and the activities it performs.	

SOURCE: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
